**The is an updated version of @BahamutoD 's original Baha EPL mod. The drills are compatible with stock and now animate and behave like stock drills.**

I'll be maintaining from now on, or until BahamutoD returns.!

These are a pair of animated augers (one large, one small) for the Extraplanetary Launchpads mod by skykooler and taniwha.

They do not overwrite any parts from the mod and aren't officially part of the mod, just my own addon for them.
